

## Dim-Out Blind System

# Silent Gliss® 4510

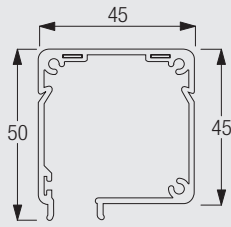

### Product Information

- Technically advanced chain-operated blind with over 20 years experience in dim-out blinds
- Choice of three cassette headboxes depending on drop and thickness of fabric, ensuring smallest dimensions of system possible commensurate with efficient operation
- Choice of two side profiles depending on installation requirements
- Standard is inside recess profile using adjustable side profiles to allow for variations in width of framework. Optional outside recess profile also available
- For situations where there may be excessive air movement use system 4540/4550 with heavy duty side profile 4516
- Fabrics are contained within the side profiles by rivets
- Black or white frame as standard; silver and colours are available to special quote. Plastic components are black or white in all cases
- Choice of FR blackout fabrics
- Delivered ready-assembled made-to-measure
- Can also be operated in inclined or horizontal positions up to 30° from vertical

4510

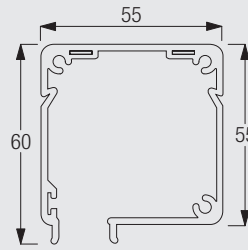

## Profile and Bending Information

4501

Cannot be bent.

4502

Cannot be bent.

4503

Cannot be bent.

The choice of fabric may influence the size of headbox/profile to be used.  
Thicker fabrics may require the use of profile 4502 (55mm) or 4503 (73mm).

## How To Measure

Measurements for Silent Gliss Dim-Out Systems should be undertaken by a fully trained dim-out specialist.

4510
